DEPARTMENT OF MECHANICAL ENGINEERING

About the College

JNTUH College of Engineering Jagtial (JNTUHCEJ) was established in the year 2007 as a constituent college of Jawaharlar Nehru Technological University, Hyderabad. The college is recognised by UGC under section 2(f) & 12(B) of the UGC Act, 1956. JNTUHCEJ started functioning with five Under Graduate programs viz., EEE, ME, ECE, CSE & IT. And since 2011, the college is offering five Post Graduate programs viz., EPS in EEE, ED in ME, DSCE in ECE, CSE and IT.

About the Department

The Department of Mechanical Engineering came into existence from the inception of the college in 2007. The department offers UG programme with intake of 60 and has been adding features in its cap every year with both curricular and non-curricular activities. The department started its PG program in Engineering Design in the year 2011 with an intake of 18.

The department has state of art laboratories such as Engineering Workshop, Production Technology, Thermal Engineering, Heat & Mass transfer, Metrology, Machine Tools, Metallurgy & Material Science, Instrumentation, Fluid Mechanics & Hydraulic Machinery labs and CAD/CAM labs. The Department is having 14 Teaching, 15 Non-Teaching staff. The faculty of the department with their rich experience in Teaching and Research, authored more than 20 text books in the areas of Mechanical Engineering. Presently, the Faculty is guiding about 20 scholars for Ph.D. in various advanced fields of Mechanical Engineering and already produced 6 PhDs. The department is imparting practical knowledge in Automobile, Refrigeration, Air conditioning and other relevant areas under Re-Engineering and Reverse Engineering centre.

Scope of the Program

These days design and modelling of any mechanical components has become an inherent part of design for automotive, aerospace and manufacturing industries.

The huge competition in the market is exerting tremendous pressure on the industries to launch reasonably priced products in short time making them to rely more on virtual tools CAD/CAE to accelerate the design and development of products.

AutoCAD given a new phase of life to overcome the problems arise in the production units while working with conventional detail drawing.

By working with AutoCAD can develop faster rate of drawings within the less time with effective manner and modification of component is possible.

This program is focused on the latest trends, products and real-life experience in this dynamic emerging technology

Topics to be Covered

- Introduction to AutoCAD & working with drawing aids and layers
- Creating drawings
- Modified & editing drawings
- Working with blocks and layouts
- Introduction to 3D basics & creating 3D Models
- Introduction to CFD Software & Fluent.
