Department of ME	
B.Tech - I-Year	
CO	**Subject Name -CO Statements**
C106: Programming for Problem Solving Lab	
CO#	Student will be able to
C106.1	Able to design and execute algorithms and flowcharts for complex problems.
C106.2	Able to execute programs on arrays and strings.
C106.3	Able to apply pointer concepts for arrays, strings and structures.
C106.4	Able to create a user defined data types for concrete problems.
C106.5	Able to use files in C programming.
C106.6	Able to implement C programs for realistic problems.
