

Department of ME	
B.Tech - IV-Year	
CO	Subject Name -CO Statements
C403:Automobile Engineering	
CO#	# Student will be able to
C403.1	Acquire thorough knowledge of components of automobile and fuel systems of SI and CI engines
C403.2	Interpret the principles of cooling system, ignition system and electrical system of an automobile.
C403.3	Apply the principles of transmission system and suspension system of an automobile.
C403.4	Demonstrate various braking systems and steering system of an automobile.
C403.5	Explain the concept of modern automobiles and explore pollution control techniques.
C403.6	Develop a strong base for understanding future development in the automobile industry and comprehend the environmental implications of automobile emissions.
